## Advanced Technologies Committee (Formerly the Spectrum Innovation Committee) Report

8 December 2015

# Current Structure: Connecting Experts with Experts

## Organizational Structure for The Wireless Innovation Forum

10 November 2015

Slide 3

# ATC Activities (FY2015)

- **What was accomplished in FY2015 (1 July 2014 to 30 Jun 2015)**
  - Report:
    - Wireless Innovation Forum Top 10 Most Wanted Wireless Innovations Document WINNF-11-P-0014 Version V4.0.0 2 June 2015
    - Dynamic Spectrum Sharing Annual Report - 2014 Document WINNF-14-P-0001 Version V0.2.16 14 August 2014
  - Specifications:
    - Certification Test Plan SSRF Conformance for OpenSSRF Software v3.1.0 Document WINNF-14-S-0023 Version V1.0.0 10 February 2015
    - Certification Test Requirements for Conformance with the Standard Spectrum Resource Format (SSRF) Document WINNF-14-S-0022 Version V2.0.0 10 February 2015

# ATC Activities (FY2015)

- **What was accomplished in FY2014 (1 July 2014 to 30 Jun 2015)**
  - Recommendations:
    - Wireless Innovation Forum's Comments to the FCC regarding the Use of Bands above 24 GHz for Mobile Communications Document: WINNF-14-R-0021 Version 1.0.0 12 January 2015
    - Endorsement of Standard Spectrum Resource Format Version 3.x Working Document WINNF-14-R-0019 Version V1.0.0 12 January 2015
    - Wireless Innovation Forum's Comments to the FCC and NTIA regarding the Public Notice and Request for Comments on the Model City for Demonstrating and Evaluating Advanced Spectrum Sharing Technologies Document: WINNF-14-R-0017 Version 1.0.0 19 August 2014

Slide 5

# Top 10 Most Wanted Wireless Innovations

**Innovation #1: (modified) Techniques for Efficient Porting of Waveform Applications Between Embedded Heterogeneous Platforms**

**Innovation #2 (new) Network Management of Mobile Ad-hoc Radios**

**Innovation #3: (modified) Receiver Performance Interference Thresholds**

**Innovation #4: Low Cost Wide Spectral Range RF Front-End (Multi-octave Contiguous) (Tx,Rx)**

**Innovation #5: Efficient Techniques to Minimize Power Amplifier Spectral Regrowth in Non-contiguous Spectral Environment**

**Innovation #6: Increase Communications Time on Battery Charge by an Order of Magnitude**

**Innovation #7: Context Aware Cognitive Radio**

**Innovation #8: Interference Mitigation Techniques**

**Innovation #9: Standardized Computer Interpretable Policy Language for Cognitive Radio**

**Innovation #10: Flexible Regulatory Framework for Temporary, Cooperative and Opportunistic Access**

# Dynamic Spectrum Sharing Annual Report

The members of the Wireless Innovation Forum have created this report for Regulators, Policy Makers, Spectrum Managers, Network Planners, and Wireless Researchers who need to understand the state of technologies such as dynamic spectrum access and their ability to facilitate spectrum sharing. The report will act as a reference guide to clearly identify and synthesize a harmonized view of the results of spectrum sharing research and trials, identify what is in development, and articulate what issues are being addressed and what issues still need to be resolved.

Downloads to date: 4,386

## Dynamic Spectrum Sharing Annual Report - 2014

Slide 7

# ATC Activities (FY2015)

- **Planned for FY2016 (1 July 2015 to 30 June 2016)**
  - Release Receiver Performance Guidelines
  - Release 2<sup>nd</sup> Annual Dynamic Spectrum Sharing Annual Report

Slide 8

# Current Project: Context Aware Cognitive Radio

For developers of complex information systems with intelligent automated behaviour who need to incorporate diverse and varying information sources into their automated decision processes... The project will provide tools ... that will aid in defining, designing and selecting Cognitive Radio Systems...

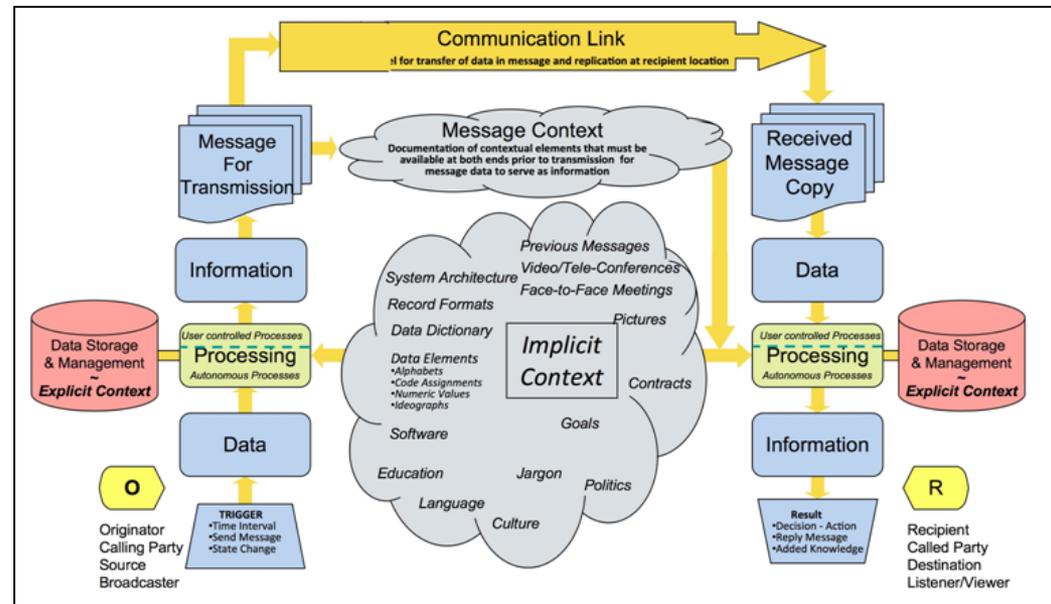

## Selected Cognitive Radio Capabilities and Missions

### CR Capabilities

- Dynamic Spectrum Access
- Cooperative Relaying (Synthetic MIMO)
- Concurrent Processing
- Cross-network Cooperation/Coexistence
- Radio Resource Management
- Self Healing Networks
- Interference Suppression (Self, External)

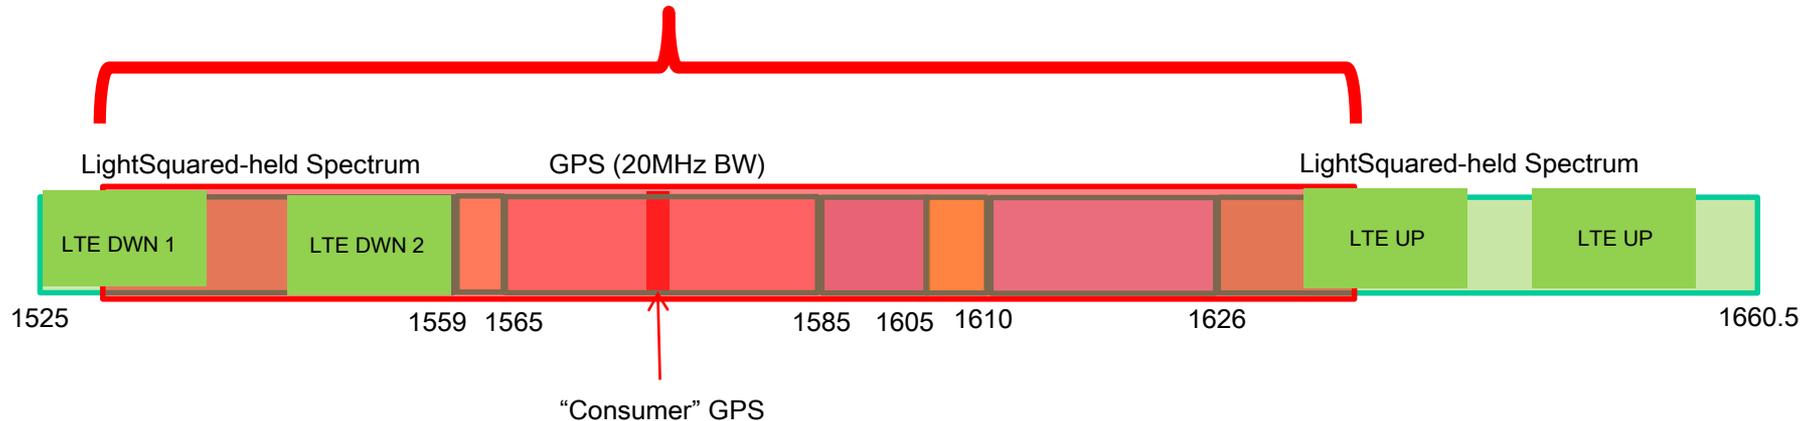

### CR Missions and Impacts

- Cognitive (Intelligent) Electronic Warfare
- Joint Component/Waveform Optimization
- Role-based (Mission-goal) Reconfiguration
- Dynamic Policy Compliance
- Power Optimization and Management
- Spectrum Auctions/Markets
- Dynamic Network (Vendor) Selection

# Current Project: Receiver Performance Guidelines

Spectrum Unusable Due to consumer GPS RX Design

- **LightSquared followed all of the rules...**
- **Without GPS receiver spec, market did not design to allow spectrum reuse**
- **Because of GPS receiver interference issues, the FCC rescinded authorization**
- **\$2.7 B Investment lost**
- **Receiver Minimum Performance Guidelines will be a necessary part of spectrum sharing solutions**

# Receiver Performance Guidelines Project

**This report is being developed for regulators, designers, manufacturers and users of wireless communications systems**

**who are developing wireless policy and equipment to access shared spectrum or to coexist with adjacent spectrum uses while understanding impact to current spectrum users.**

**The report will produce a set of actionable guidelines to design and evaluate the performance of receivers that will coexist in shared & adjacent spectrum bands that can be used as a foundation for future radio systems.**

# Spectrum Sharing Annual Report

## Project Positioning:

For Regulators, Policy Makers, Spectrum Managers, Network Planners, and Wireless Researchers

Who need to understand the state of technologies such as dynamic spectrum access and their ability to facilitate spectrum sharing,

The Spectrum Sharing Annual Report is a reference guide

That clearly identifies and synthesizes a harmonized view of the results of Spectrum Sharing research and trials, identifies what is in development, and articulates what issues are being addressed and still need to be resolved.

Unlike reports from individual, independent projects and trials that provide only a limited view of the state of spectrum sharing,

This product will consolidate the results from around the world in summary form, providing an easy reference for the target audience on the state of spectrum sharing and its viability in specific markets.

# Annual Meeting Software Defined Radio Forum, Inc

## CC SCA Report

8 December 2015

# CC SCA Mission

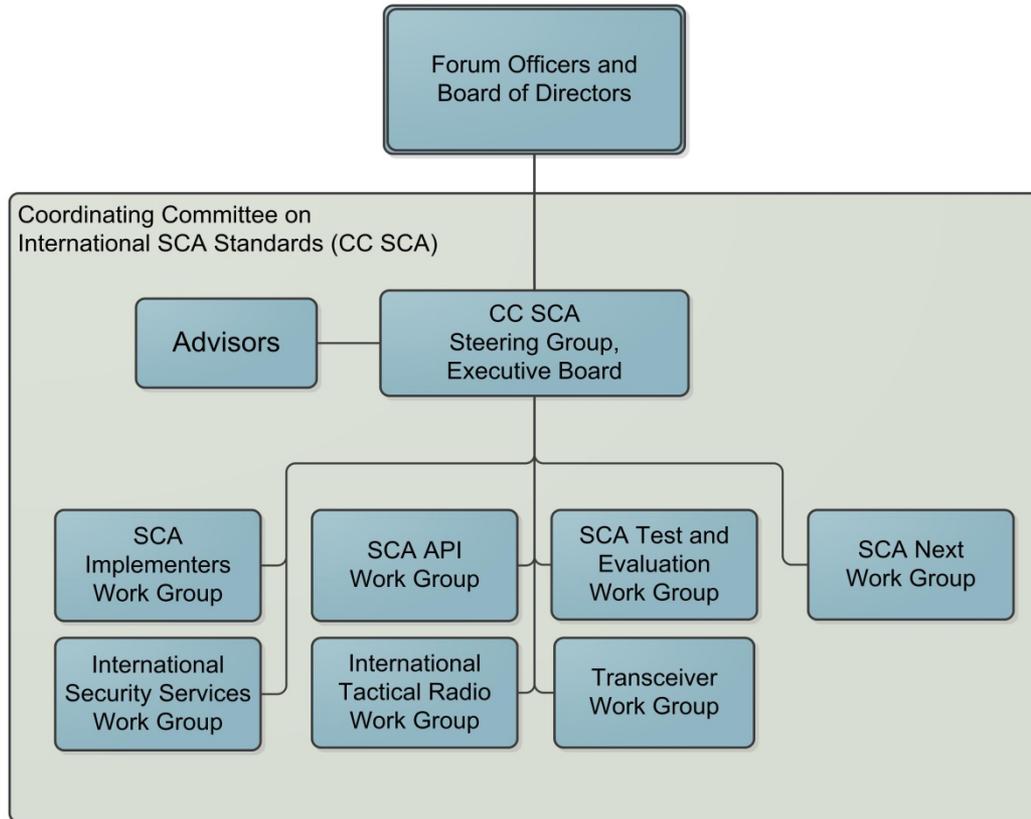

**To support the harmonization of the SCA standards at the international level for the mutual benefits of all stakeholders to include:**

- Defining an industry driven SCA evolution roadmap for the international community
- Profiling the SCA specification and related APIs to define internationally accepted variants that are hosted by the Forum
- Developing extensions to the SCA standards that address any gaps between the defined SCA evolution roadmap and Forum accepted SCA specification variants
- Providing implementation and certification guides, tools etc. easing implementation and supporting proliferation
- Establishing and managing industry led certification programs where appropriate

# CC SCA Structure

## Structure for Coordinating Committee on International SCA Standards

17 April 2013

Slide 15

# The CC SCA is led by a Steering group of worldwide tactical radio manufacturers

# CC SCA Advisory Council

## Grouping together the Steering Group and CC SCA Advisors

- Answering to the essential need of a venue for manufacturers and customers to interact
- Met at least twice a year since creation (~2011)
- Now delivering beyond expectations: Advisory Council enabled the normative referencing of WInnF PIM IDL Profiles by SCA 4.1

## Who are Advisors?

- Individuals related to MoDs active in the area of International SDR Standards
- Current list of Advisors covers JTNC Standards, OCCAR-EA, DGA, EDA, NATO, German MoD, Swedish MoD, IT MoD
- Appointed upon invitation issued by the Steering Group

# SCA Evolution WG: SCA 4.1

**Feb: Draft SCA 4.1 published**

**Mar-Apr: WinnF takes lead in adjudication of comments received regarding Core Spec**

- 20 Meetings; 106 Man Hours for meetings: 26 Issues Adjudicated
- Of Note: addition of multi-core support in SCA

**Apr-July: normative referenceing of WinnF PIM IDL Profiles**

- 3 Meetings; 13 Man Hours for meetings
- PIM IDL Profiles v2.0.1 released

**Aug: SCA v4.1 Final Draft Released**

- ICWG Approval (WinnF support expressed)

**Sep: SCA 4.1 released**

**Dec: WinnF Endorsement of SCA 4.1**

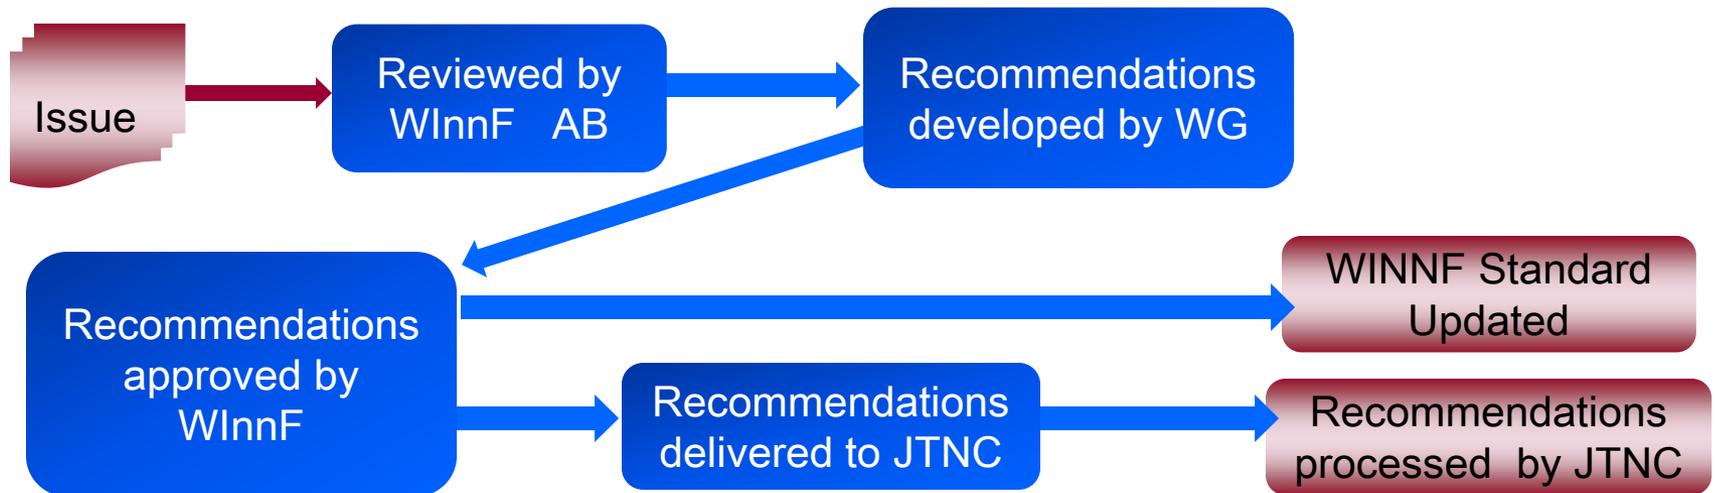

# Additional CC SCA Activities

## OCCAR ESSOR Agreement

- For the exchange of information in order to support the harmonization of the Software Communication Architecture (SCA) standards at international level

## SCA Comment Handling

- Web-based Issues collection mechanism, open to all

Slide 19

# Transceiver Next WG

## Revision to WInnF Transceiver Facility V1.0.0 specification

- Improves the V1 content based on years of implementation experience
- Integrates contributions for a larger international basis than early practitioners of V1
- Features implementation-abstract standard APIs that allow a high degree of portability for SDR Applications
- Broadens applicability of the specification to other categories of SDR Applications such as Test and Measurement, Dynamic Spectrum Allocation, TV Broadcasting or Sensing

# SCA Advocacy WG

## **ITR SIG Market Report (WINNF-15-P-0064)**

- Business Models for new entrants in SDR Tactical Radio Market

## **“Wireless Innovation Forums Contribution to SCA 4.1”**

- October 2014 Military Embedded System magazine
- January 2016 Springer Journal of Signal Processing

## **SCA New Market Opportunity Report**

- Expand the adoption of the SCA technology into new markets, sharing its benefits to other domains, making it a de-facto standard for heterogeneous embedded systems and facilitating the growth of innovation around the technology.

# CC SCA Test & Evaluation WG

## Finalize SCA Test Lab Recommendations

- Complete report that provides an overview understanding of an SCA test Lab.
- Identify artifacts that are the inner workings for the SCA Test Lab's existing.
- Identify the business case as it pertains to the financial concerns of a business entity.

# Future Project Considerations

## Candidate Report Projects

- SCA 4.1 Adoption: Report on adoption aspects and implications
- Coalition Interoperability: Identify opportunities for tactical communications improvements in coalition operations

## Candidate Specification Projects

- Harmonization of Time related APIs/services
- 4.1 Test & Eval Criteria
- Military Transceiver Profiles

# Annual Meeting Software Defined Radio Forum, Inc

## Spectrum Sharing Committee Report 8 December 2015

# Overall 2015 Accomplishments in Establishing Part 96 Ecosystem

## **Grown to 49 Organizations Reflecting:**

- The 4 Major US Carriers
- Major LTE Infrastructure Suppliers
- The US SOC and Chip Providers
- Recently added Enterprise WiFi Channel
- Incumbent interests, such as satellite and Wireless ISPs
- Spectrum Access System Providers
- Plus Government, other standards body observers

## **Created cohesive, cross industry positions**

- Common Reconsideration positions on power, protection
- Ex-parte meeting on power measurement

## **Established Operational Frameworks for the 3.5 Ecosystem**

- Authentication, training, synchronization, ...

## **Recognized by FCC as the body that speaks for industry**

# Participation to Date – 154 People, 49 Organizations

## Members

Slide 27

# Status Update from WinnForum

## **WG1 (Operational and Function Requirements, Chairs: Andy Clegg, Google and Al Jette, Nokia Networks)**

- SAS Functional Architecture Approved
- 41 “Scenarios” Identified
- Requirements for Commercial Operation in the U.S. 3550-3700 MHz CBRS Band: February 2016

## **WG2 (Security Requirements, Chair: Charles Clancy, Federated Wireless)**

- Operational Security Requirements: February 2016
- Communication Security Requirements: February 2016

## **WG3 (Protocols, Chairs: Jesse Caulfield, Keybridge Global and Prakash Moorut, Nokia Networks)**

- Interim Technical Report Approved
- SAS to CBSD Protocol (Chair: Prakash Moorut, Nokia Networks): February 2016
- SAS to SAS Protocol (Chair: James Ni, Federated Wireless): March 2016

## **WG4 (Test and Certification, Chair: Kurt Schaubach, Federated Wireless)**

- High level Certification Flow Approved
- Test and Certification Objectives: February 2016
- Test and Certification Requirements Specification: May 2016

# Other activities

## **WG1/WG3 Joint Architecture Task Group**

- Complete

## **FSS Joint Task Group**

- Complete

## **WG1/WG2 Joint ESC Task Group**

- In Progress

## **3650 Task Group**

- In Progress

# Annual Meeting Software Defined Radio Forum, Inc

## India Regional Committee Report 8 December 2015

# India Regional Committee

## Objective

- to spread WinnF in India and acquire membership;
- to organize local meetings for members interaction and participation

## During 2015, two one day meetings were held

- one on SCA by Nordiasoft team
- another on Tactical SDRs by David Renaudeau of Thales.

## Members in India Region are:

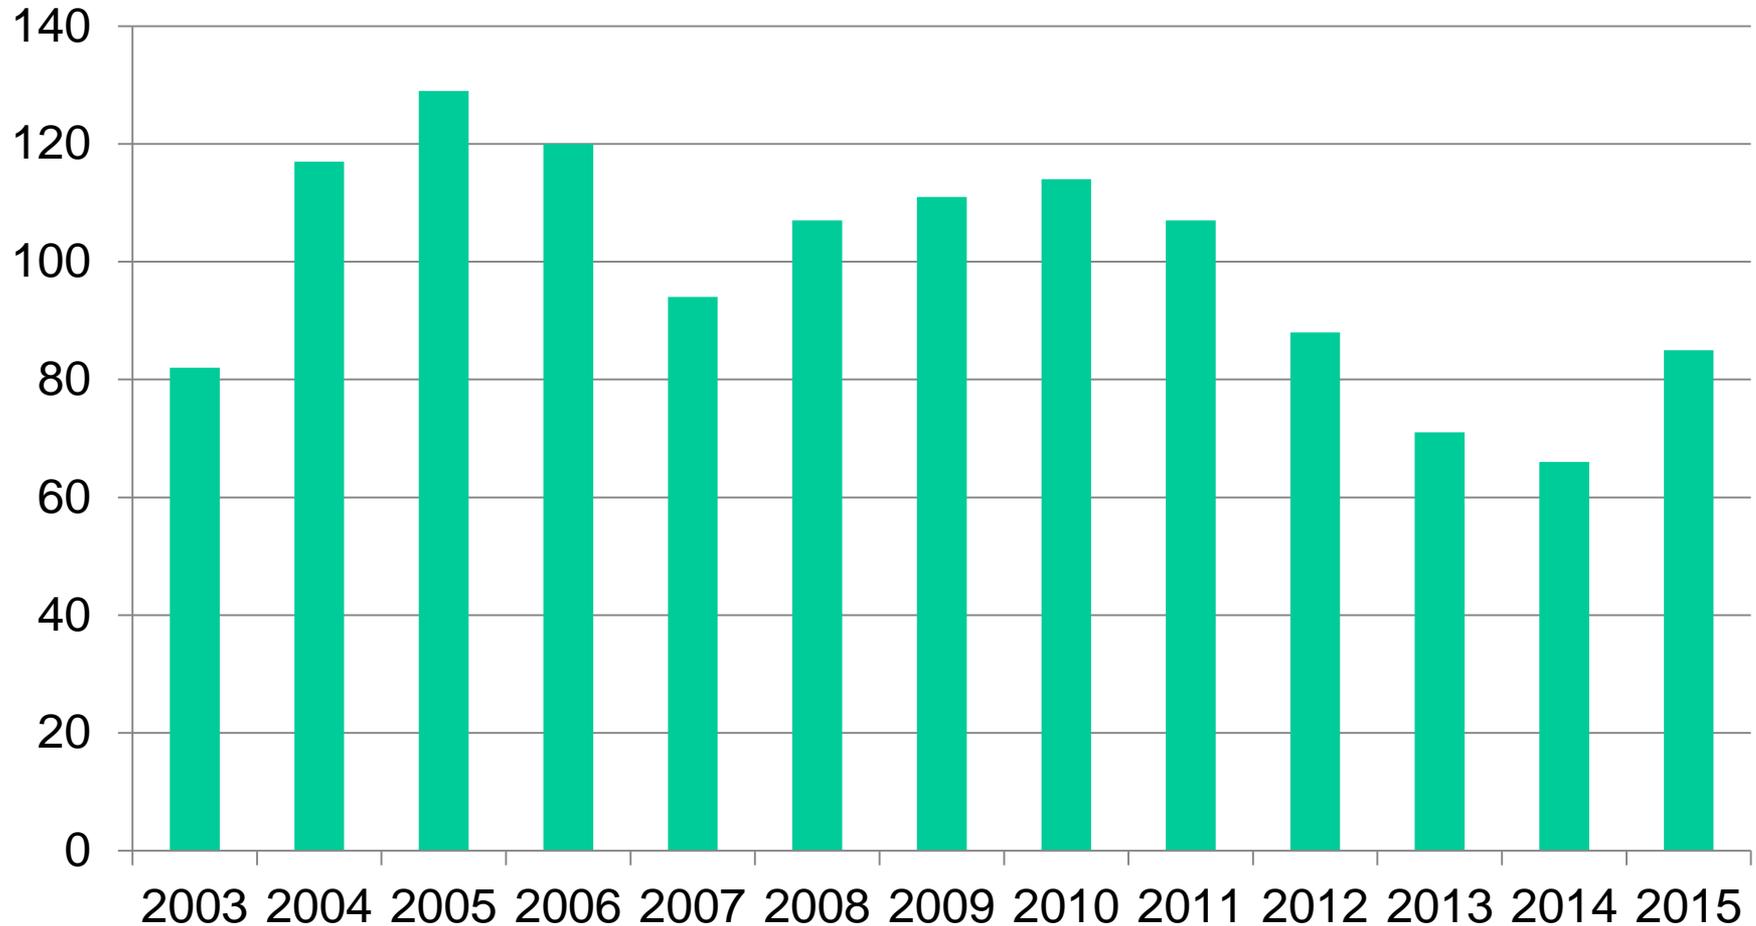

- Bharat Electronics Limited
- Rolta
- Tata Power SED

# CY2015 Meetings and Events

## General

- WInnComm: 24 to 26 March
- WInnComm Europe: 5 to 9 October

## CCSCA Events

- SCA 4.1 Draft Release Webinar: 18 Feb
- Transceiver Next Meetings
  - 26 to 28 May
  - 14 to 16 July
  - 16 to 18 September

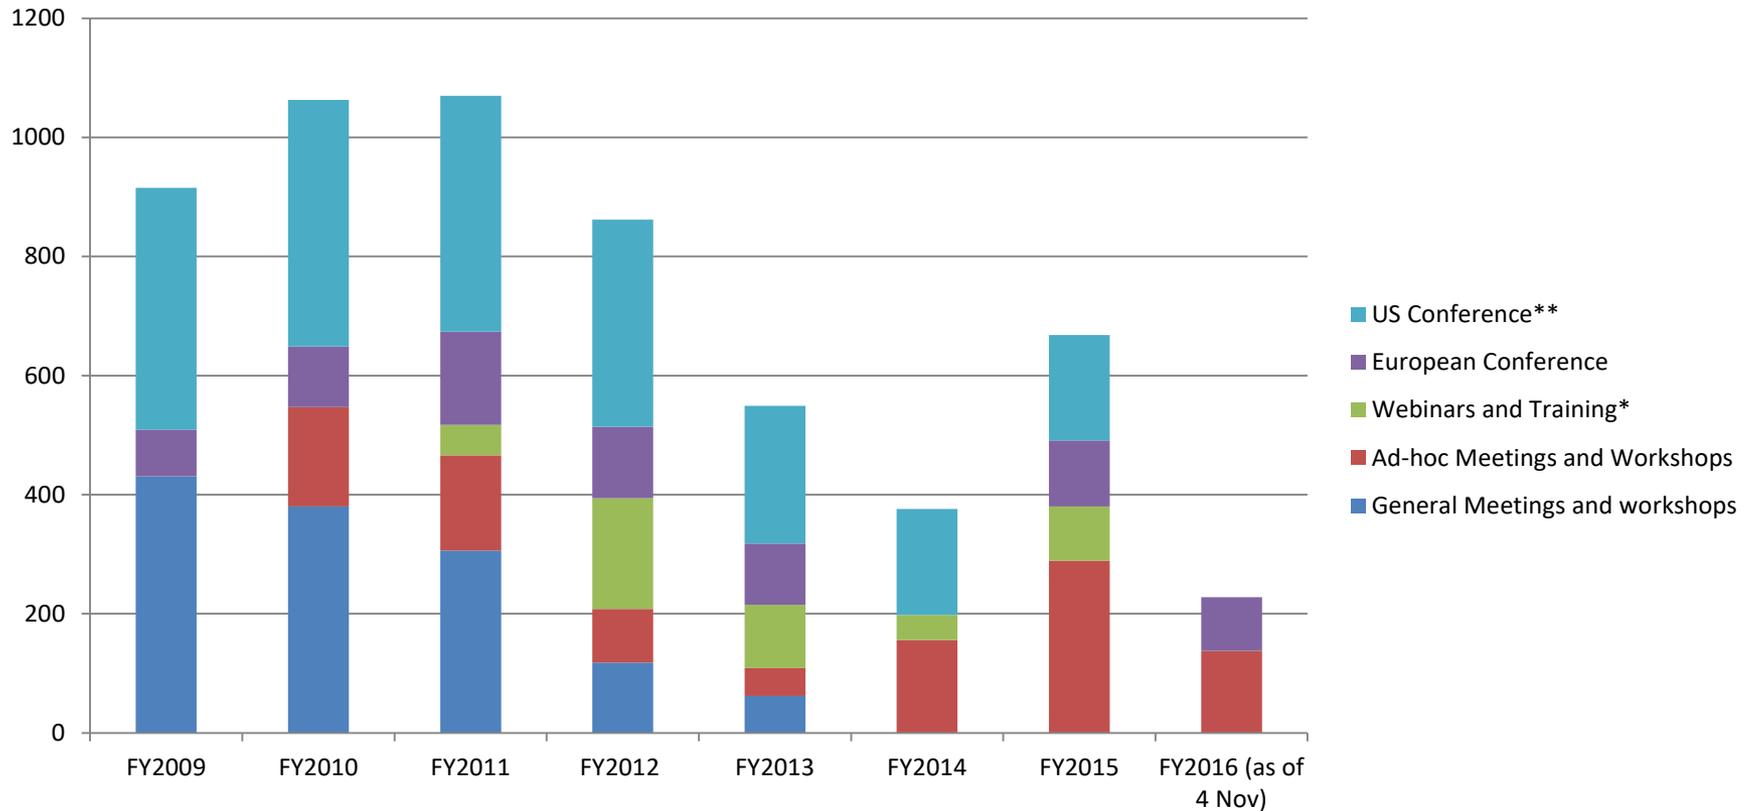

## India Regional Committee Meetings

- 11 May
- 2 July

## Spectrum Sharing Committee Events

- Introduction to the 3.5 GHz Band Webinar: 17 June
- Committee Meetings
  - 27 January
  - 30 April
  - 25 June
  - 6 Aug 2015
  - 16 to 17 September
  - 3 to 4 November

## Professional Tools

- Group Portal
  - Document Development
  - File Management
- Tele/Web Conferencing
  - Go To Meeting

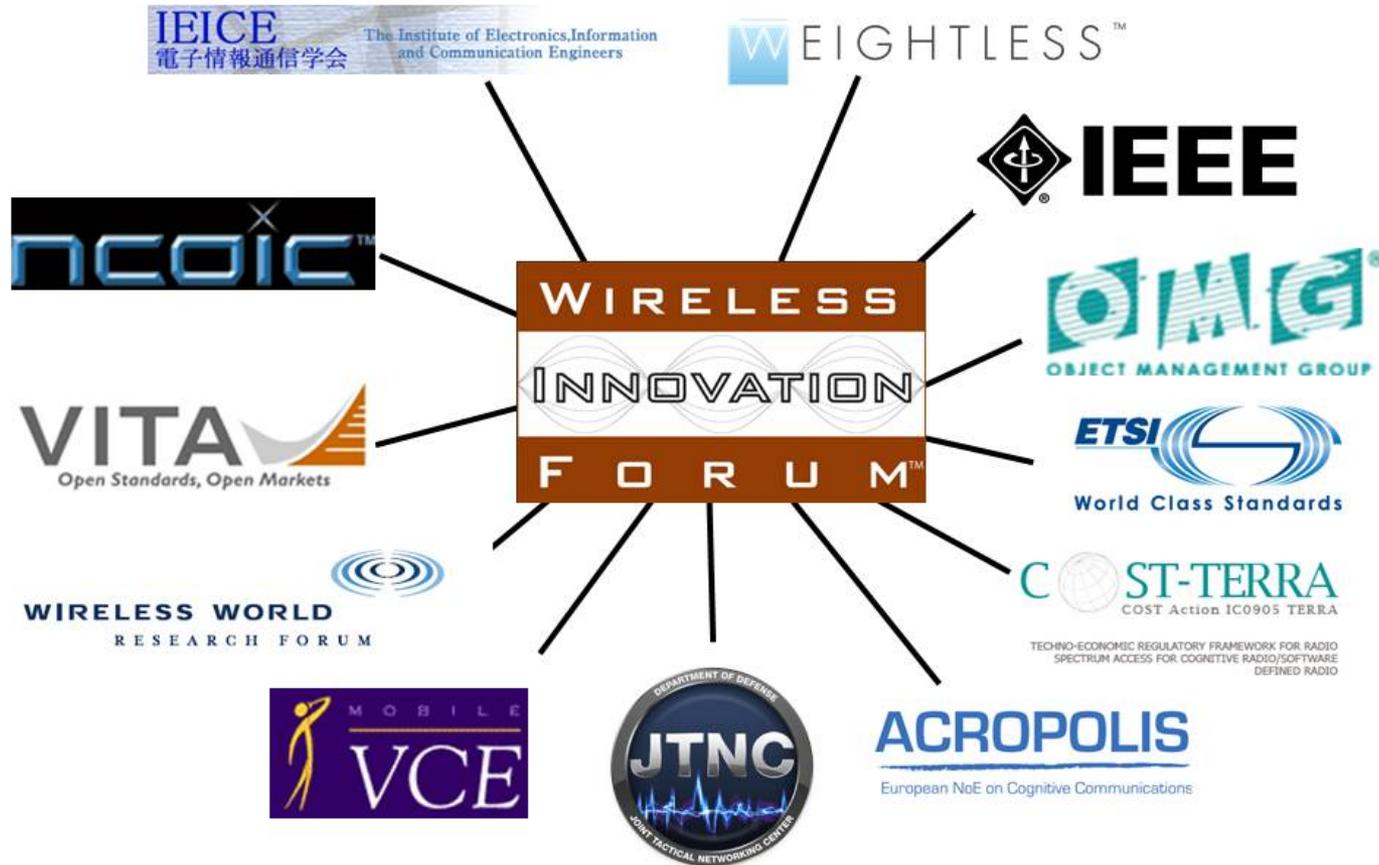

The screenshot shows the SDR Forum website interface. At the top, there's a navigation bar with 'Home', 'Communities', 'News', 'Forums', 'Files', 'Members', 'Surveys/Polls', 'Blogs', and 'Admin'. Below this, the page title is 'Transceiver Facility Task Group'. There are sections for 'Links', 'Admin Links', and 'Community Reports'. A main content area contains text about the Transceiver Subsystem Interfaces Task Group (TSI-TG) and its goals. There's also a 'News' section with a recent entry: 'News: Transceiver System Interface Task Group News - Transceiver Facility V1.0.0 approved on 28-Jan-09 (Feb 19, 2009 02:40 PM)'. A 'Forum' section is visible at the bottom. On the right side, there are widgets for 'Meetings for November 2009' and 'Current Month Calendar'.

## Staff Support

- Technical Editing
- Graphic Design
- Configuration Management
- Balloting

The screenshot shows the SDR Forum website interface for the 'SCA WG NEXT' community. The navigation bar is similar to the previous screenshot. The main content area features a calendar for November 2009, with a meeting on Tuesday, Nov 03 at 08:00 AM titled 'SCA Next Telecon'. Below the calendar is a 'Forum' section with a list of document library entries, such as 'Document Library: S013 FOCUS Architectural Consistency' and 'Document Library: S049 Standard way for exceptions to be defined and handled'. There's also a 'File Library' section. On the right side, there are widgets for 'Announcement Lists', 'Meetings for November 2009', 'Current Month Calendar', 'Poll', and 'Links'.
