WINNF Comment on the SCA 4.1 Specification Candidate

Document WINNF-15-R-0066

Version V1.0.0

14 August 2015

TERMS, CONDITIONS & NOTICES

This document has been prepared by the CCSCA Steering Group to assist The Software Defined Radio Forum Inc. (or its successors or assigns, hereafter "the Forum"). It may be amended or withdrawn at a later time and it is not binding on any member of the Forum or of the CCSCA Steering Group.

Contributors to this document that have submitted copyrighted materials (the Submission) to the Forum for use in this document retain copyright ownership of their original work, while at the same time granting the Forum a non-exclusive, irrevocable, worldwide, perpetual, royalty-free license under the Submitter's copyrights in the Submission to reproduce, distribute, publish, display, perform, and create derivative works of the Submission based on that original work for the purpose of developing this document under the Forum's own copyright.

Permission is granted to the Forum's participants to copy any portion of this document for legitimate purposes of the Forum. Copying for monetary gain or for other non-Forum related purposes is prohibited.

THIS DOCUMENT IS BEING OFFERED WITHOUT ANY WARRANTY WHATSOEVER, AND IN PARTICULAR, ANY WARRANTY OF NON-INFRINGEMENT IS EXPRESSLY DISCLAIMED. ANY USE OF THIS SPECIFICATION SHALL BE MADE ENTIRELY AT THE IMPLEMENTER'S OWN RISK, AND NEITHER THE FORUM, NOR ANY OF ITS MEMBERS OR SUBMITTERS, SHALL HAVE ANY LIABILITY WHATSOEVER TO ANY IMPLEMENTER OR THIRD PARTY FOR ANY DAMAGES OF ANY NATURE WHATSOEVER, DIRECTLY OR INDIRECTLY, ARISING FROM THE USE OF THIS DOCUMENT.

Recipients of this document are requested to submit, with their comments, notification of any relevant patent claims or other intellectual property rights of which they may be aware that might be infringed by any implementation of the specification set forth in this document, and to provide supporting documentation.

This document was developed following the Forum's policy on restricted or controlled information (Policy 009) to ensure that that the document can be shared openly with other member organizations around the world. Additional Information on this policy can be found here: http://www.wirelessinnovation.org/page/Policies_and_Procedures

Although this document contains no restricted or controlled information, the specific implementation of concepts contain herein may be controlled under the laws of the country of origin for that implementation. Readers are encouraged, therefore, to consult with a cognizant authority prior to any further development.

WINNF Comment on the SCA 4.1 Candidate

1   Ballot Vote Statement

Wireless Innovation Forum Coordinating Committee on SCA International Standards Steering Group, with the authorization of the Committee and the WINNF Board of Trustees, issues the following comment on the SCA 4.1 candidate specification,

"The Wireless Innovation Forum is supportive of adoption by ICWG of the released SCA 4.1 Final Draft, and appreciates the opportunity provided by the JTNC to collaborate in the development of SCA 4.1, especially regarding the normative reference to WINNF-14-S-0016 "IDL Profiles for Platform-Independent Modeling of SDR Applications", version V2.0.1. The Wireless Innovation Forum believes SCA 4.1 Final Draft exceeds the objectives initially assigned to SCA 4.1 development efforts in terms of better scalability, improved suitability for SWAP-constrained products, increased information assurance, providing a leaner software architecture while preserving backwards compatibility of SCA 2.2.2 based Waveforms."

Note that this document does not imply endorsement of the specification by WINNF.
